## Smarsh Acquires Digital Reasoning

Combining Global Leadership in Artificial Intelligence and Machine Learning with Market Leading Electronic Communications Archiving and Supervision

PORTLAND, Ore. & NASHVILLE, Tenn. - November 10, 2020 - Smarsh®, enabling organizations to manage risk and uncover value within their electronic communications, announced the acquisition of Digital Reasoning, a global leader in natural language processing (NLP), artificial intelligence (AI), and machine learning (ML), at the 2020 FINRA Artificial Intelligence Virtual Conference. The transaction brings together the leadership of Smarsh in digital communications content capture, archiving, supervision and e-discovery, with Digital Reasoning’s leadership in advanced AI/ML powered analytics. The combined company will enable customers to spot risks before they happen, maximize the scalability of supervision teams, and uncover strategic insights from large volumes of data in real-time.
